

## DRAPER FOCALPOINT® PORTABLE FOLDING SCREENS

FocalPoint® portable projection screen utilizes interchangeable parts of the same frame pieces to create different size viewing formats. Sizing flexibility streamlines inventory and enables a greater return on initial investment making it ideal for the AV rental market, churches, or commercial applications. Simplicity of design and rugged components allow the FocalPoint to withstand the rigors of repeated set-ups and tear-downs. The lightweight, yet extremely rigid and durable modular frame is field repairable. Comes with Draper's unique DuraLoop™ bungee system and features easy, quick attachment of the viewing surface. Self-centering tension keeps the surface taut for a truly flat viewing surface providing better image quality.

- Case dimensions are 16-3/8" high x 17-1/4" deep x 60" long (42 cm x 44 cm x 152 cm).
- Maximum image area width up to 20' (610 cm) wide, depending on surface selection.
- Black border on all four sides of the viewing surface extends past the edge of the perimeter frame to hide the DuraLoops™ and frame post.
- Frame available in black with color-coded sections for easy assembly. Optional anodized silver finish available upon request.
- Viewing surface easily attaches to perimeter frame with DuraLoop™ bungee cord loops.
- Includes viewing surface pouch, protective floor tarps, carrying cases, and leg kit.
- Dress kit available with Inherently Flame Retardant (IFR) velour.
- Includes heavy-duty, molded polyethylene wheeled carrying case.
- Available with interchangeable front or rear projection surfaces.
- Custom surfaces and sizes are available.
